

iO™ Compliance Monitor

Intelligent Orthotics. Intelligent Outcomes.

Wearable technology is growing in healthcare and is influencing how prescribers and patients share information. Access to real-time compliance data can influence treatment recommendations and encourage patients to be more involved with their overall health and wellness.

The iO-Compliance monitor option is now available on custom scoliosis orthoses and neuropathic walkers.

Features:

- Monitor is seamlessly fabricated into the orthosis
- Calculates daily & average % compliance
- One-touch downloading
- Simple, exportable, printable, reports

1. 44-1600 Practitioner Kit (required tools)
NationalLabs_Tempe@spsco.com or
480- 894-1755
2. Download orderform:
<http://spsnationallabs.com/forms.html>
Select iO compliance option

Scoliosis

Donzelli et al. demonstrated compliance is a key element to successful Adolescent Idiopathic scoliosis bracing treatment. *Scoliosis* 2012, 7:12.

Neuropathic Walkers

Armstrong et al. concluded compliance may increase the prevalence of healing in patients with diabetic foot ulcerations. *Diabetes Care* 26:000–000, 2003.
